Do not use chemicals for cleaning.

Avoid direct sunlight / continuous light. This may cause color fading.

Extra care is required in vertical pasting of laminates sheets as there is possibility of bubbles due to lack of uniform pressure.

Cracking at corners and around the cuts may be caused due to improper conditioning, improper bonding or poor planning. Avoid all these to prevent cracking at corners.

CERTIFIED COMPANY

Notes :

All tests may not be valid for metallic Laminates.

Samples pasted, represent only colour, pattern and finish, not actual thickness. There may be slight variation in shades in batch to batch, particularly in Metallic Designs.

Bonding of laminate under high humidity, plywood with high moisture content, ply with uneven surface, interior quality adhesive and insufficient pressure may lead to delamination/ air bubbles in between ply and laminate.

Virgo Lam warrants that its product are free from manufacturing defects and they are fit and suitable for usual purpose under normal and proper use. The product must be inspected prior to installation and our liability will be limited to the extent of the product only.
